Vibe AI Labs

COMPANY PROFILE

Marketing × AI × Creative

One system to grow, operate more efficiently and innovate in the digital environment.

CONTENTS

Agenda

Marketing × AI × Creative
One system. Three capabilities.

01 **Who is Vibe AI Labs**
Positioning, vision, values and what sets us apart

02 **Three capabilities, 19 service groups**
Digital Marketing · AI & Automation · Design & Creative Studio

03 **How we work**
Method, process, security and handover

ABOUT US

A growth and creative agency powered by Artificial Intelligence (AI)

Vibe AI Labs provides Marketing, Artificial Intelligence (AI) and Creative solutions for businesses, organizations and individuals in Vietnam.

We connect strategy, brand, content, communications, technology, data and automation into one system, instead of treating Marketing, AI and Creative as separate activities.

Our goal: not just to work more efficiently, but to build systems that can be measured, optimized, automated and grown over the long term.

Design & Creative Studio
Identity, graphics, illustration, photography, video, generative AI

CLIENT CHALLENGES

Most businesses don't lack tools. They lack a system.

Marketing

- No clear strategy
- Fragmented activities that are hard to measure
- High ad costs, low conversion rates
- Inconsistent content
- Customer data is underused

AI & Automation

- Not sure where to start with AI
- Lots of repetitive work that relies on manual steps
- Data scattered across many systems
- Reporting takes too much time
- Customer care and sales are not yet automated

Creative

- No consistent identity system
- Hard to produce content at scale
- Production takes a lot of time
- Need many content variations
- Need to streamline image and video production

GROWTH SYSTEM

Three capabilities. One system.

Digital Marketing

The foundation for building and growing your presence in the market.

10 service groups

Strategy · Brand · Content · Social media · Website · Communications & performance · SEO · PR · Data · E-commerce

Artificial Intelligence (AI) & Automation

Bringing AI into real problems to cut manual work and speed up processes.

4 service groups

AI consulting · Automation & AI Agents · Chatbots & AI assistants · Content & creative with generative AI

Design & Creative Studio

Where strategy and ideas become visual experiences.

5 service groups

Identity & logo · Graphics · Illustration · Photography & video · Creation with generative AI

Marketing × AI × Creative

WHAT SETS US APART

Six differentiators

01

Connecting Marketing with AI

Use AI, data and automation to make Marketing faster, more effective and scalable.

02

Connecting AI with real problems

Problem → Process → Data → Solution → Technology. Not: Technology → look for somewhere to apply it.

03

Connecting Creative with technology

Creative thinking, art direction, traditional production and generative AI.

04

From consulting to delivery

With you from discovery and strategy to delivery, measurement, optimization and scaling.

05

Flexible on technology

Tools are chosen by the problem, existing systems, data, security, budget and operability.

06

People at the center

What people should do, what AI should support, and what can be fully automated.

VISION

To be the partner of businesses, organizations and individuals in Vietnam in applying Marketing, AI and Creative to solve real problems.

To turn Artificial Intelligence (AI) from a new technology into a practical, accessible tool that creates clear value in work, business and creativity.

MISSION

Connect Marketing strategy, AI technology, data, automation and creative capability into solutions that can be implemented in practice.

1. Define the right problem before choosing technology.
2. Apply AI to use cases with real value.
3. Improve Marketing performance and growth.
4. Automate the work and processes that can be optimized.
5. Help teams boost productivity with AI.
6. Turn ideas into solutions, prototypes and products that can be tested.
7. Combine technology with creativity to scale content production.
8. Build systems that can be measured, optimized and scaled.

CORE VALUES

Six core values

01

Start from the problem

Understand the problem, the goal and the value the client wants to create — never start from technology or tools.

02

Real value

A solution only matters when it creates visible improvement in performance, experience, cost or growth.

03

People and technology together

AI is a tool that extends what people can do, not a full replacement for them.

04

Creativity with purpose

Creativity serves the brand, the experience, communications and business goals — not just looks.

05

Measure and optimize

Every solution can be tracked, evaluated and improved based on data and real results.

06

Keep testing and innovating

Keep experimenting, learning and updating methods to fit each problem.

SERVICES AT A GLANCE

19 service groups, three capabilities, one system

Digital Marketing
10 service groups

01 Marketing strategy
02 Brand building
03 Creative & content
04 Social media
05 Website & digital platforms
06 Communications & performance marketing
07 SEO & AI-powered search
08 PR & influencers
09 Data & growth
10 E-commerce & social commerce

Artificial Intelligence (AI) & Automation
4 service groups

01 Artificial Intelligence (AI) strategy & consulting
02 AI automation & AI Agents
03 Chatbots & AI assistants
04 Content & creative with generative AI

Design & Creative Studio
5 service groups

01 Brand identity & logo design
02 Graphic design & visual communication
03 Illustration & visual art
04 Photography & video production
05 Creation & production with generative AI

01

Digital Marketing

The foundation that helps businesses build and grow their presence in the market — every activity tied to the customer journey and to measurable business goals.

01

Marketing strategy

The base layer for understanding the market, customers and competitors, and setting direction before any Marketing activity begins.

Research → Customers → Competitors → Strategy → Plan

ROLE

Helps businesses pinpoint the right market, the right customers, the right message, the right channels and the right way to execute.

SCOPE OF SERVICES

- **Research & analysis**
  - Market research
  - Category research
  - Market trend analysis
  - Competitor analysis
  - Target customer analysis
  - Consumer behavior analysis
  - Customer persona development
  - Customer segmentation
- **Strategy & planning**
  - Marketing strategy development
  - Communications strategy development
  - Channel strategy development
  - Campaign planning
  - Communications planning
  - Product launch planning
  - Overall Marketing review
  - Customer journey analysis
  - Marketing funnel development
  - Marketing budgeting
  - KPI framework development
  - Monthly, quarterly and annual Marketing plans

02

Brand building

Build the brand foundation, positioning and a consistent image so the business stands apart in the market.

Brand strategy → Positioning → Identity → Image → Consistency

ROLE

Build the brand's image, personality and standing in a way that is clear, professional and consistent.

SCOPE OF SERVICES

- **Strategy & messaging**
  - Brand strategy
  - Brand positioning
  - Brand architecture
  - Brand naming
  - Slogan and tagline development
  - Brand messaging development
- **Identity & collateral**
  - Logo design
  - Brand identity system design
  - Brand guidelines development
  - Key visual development
  - Sales material design
  - Company profile design
  - Packaging design
  - POSM design
- **Brand refresh**
  - Brand refresh
  - Brand repositioning

03

Creative & content

Develop ideas, messages and creative assets for communications, advertising and sales.

Content strategy → Ideas → Message → Design → Images & Video

SCOPE OF SERVICES

• Strategy & ideas

- Content strategy
- Content direction
- Content pillar development
- Content planning
- Creative ideas
- Campaign ideas
- Communications ideas
- Messaging development

• Content writing

- Content writing
- Ad copywriting
- Website copywriting
- Social media content
- SEO content

• Design

- Graphic design
- Ad creative design
- Social media visual design
- Campaign visual design

• Video & images

- Short-form video
- TikTok / Reels
- Video production
- Ad video
- Corporate intro video
- Product video
- Product photography
- Brand photography
- Motion graphics
- Content for integrated campaigns

ROLE

Turn Marketing strategy into content that attracts, carries the message and drives customer action.

04

Social media

Build, manage and grow the brand's presence on social media platforms.

Channel strategy → Content → Publishing → Engagement → Community

SCOPE OF SERVICES

Strategy

- Social media strategy
- Channel direction setting

Channels

- Facebook
- TikTok
- Instagram
- LinkedIn
- Zalo OA
- YouTube

Content operations

- Content calendar
- Content writing and design
- Posting and channel management
- Comment and message management

Community

- Community management
- Community building
- Seeding
- Mini-games
- Social media campaigns
- Community group administration
- Follower care

Reporting & optimization

- Social media performance reports
- Data-driven content optimization

ROLE

Build community, raise visibility and engagement, and sustain the relationship between brand and customers.

05

Website & digital platforms

Build digital platforms that receive traffic, provide information, capture leads and drive conversions.

Structure → Experience → Design → Development → Conversion

ROLE

Build the central platform that receives customers and connects Marketing activity to business conversion.

SCOPE OF SERVICES

Structure & experience

- Website structure consulting
- Sitemap planning
- User experience design
- UI/UX design

Website types

- Corporate website
- Product and service website
- Sales website
- E-commerce website
- Landing page
- Campaign website
- Microsite

Optimization

- Mobile display optimization
- User experience optimization
- Website speed optimization
- Conversion rate optimization

Integration & measurement

- Lead capture form setup
- CRM integration
- Chatbot integration
- Payment system integration
- Measurement tool integration
- Google Analytics setup
- Google Tag Manager setup
- Conversion tracking setup

Operations

- Website maintenance
- Website content updates

Apps & digital platforms

- App Marketing strategy
- App install advertising
- New user acquisition
- App user retargeting ads
- In-app conversion optimization
- App data analysis
- ASO
- App user growth

06

Communications & performance marketing

Use advertising, communications and data to expand reach and generate traffic, leads, orders and revenue.

Reach → Traffic → Leads → Conversion → Revenue

ROLE

Put the brand in front of the right customers and turn Marketing budget into measurable results.

SCOPE OF SERVICES

Communications planning

- Communications planning
- Media plan development
- Media channel selection
- Budget allocation
- Campaign structure development
- Channel-level KPI setting
- Stage-by-stage customer outreach planning

Digital advertising

- Meta Ads
- Google Ads
- TikTok Ads
- YouTube Ads
- LinkedIn Ads
- Zalo Ads
- Display ads
- Native ads
- Programmatic advertising
- Retail media

Out-of-home advertising

- OOH
- DOOH
- Ad screen booking
- Media placement booking

Performance marketing

- Lead generation
- Conversion campaigns
- Sales campaigns
- Retargeting ads
- E-commerce ads
- App advertising
- Ad buying and allocation
- Cost-per-lead optimization
- Cost-per-conversion optimization
- ROAS optimization
- Ad revenue optimization
- Campaign reporting and optimization

07

SEO & AI-powered search

Build the business's visibility on traditional search engines and on Artificial Intelligence (AI) search platforms.

Search → Visibility → Visits → Content → Conversion

ROLE

Create a sustainable source of organic traffic and put the brand in view when customers actively search for information.

SCOPE OF SERVICES

- **SEO**
  - SEO strategy
  - SEO website audit
  - Keyword research
  - Search intent analysis
  - Technical SEO
  - On-page SEO
  - Off-page SEO
  - Content SEO
  - Local SEO
  - Link building
  - Topic cluster development
  - Website structure optimization
  - Website speed optimization for SEO
  - Product and service page optimization
  - Search ranking tracking
  - Organic traffic growth reports
- **AI search · GEO · AEO**
  - GEO
  - AEO
  - Content optimization for AI engines
  - Optimizing for brand mentions by AI
  - Optimizing for citation in AI results
  - Building presence on AI Search
  - Tracking brand visibility across AI platforms

08

PR & influencers

Expand the brand's reach and credibility through press, media, communities and influencers.

Message → Press → KOL/KOC → Community → Reach & Credibility

ROLE

Amplify the message and raise the brand's awareness, credibility and influence.

SCOPE OF SERVICES

- **PR & communications**
  - PR strategy
  - Communications plan
  - Press relations
  - Press release writing
  - PR article writing
  - Media article placement
  - Press booking
  - Media booking
  - Corporate communications
  - Executive communications
  - Product communications
  - Brand launch
  - Product launch
  - Crisis communications
- **KOL/KOC & influencers**
  - Influencer strategy development
  - KOL/KOC sourcing
  - Creator selection
  - KOL/KOC booking
  - Influencer campaign management
  - KOC reviews
  - Affiliate creators
  - Livestreams with KOL/KOC
  - Community seeding
  - Campaign performance measurement
- **Events & brand activation**
  - Product launch events
  - Workshops
  - Conferences
  - Roadshows
  - Activations
  - Sampling
  - Booths
  - Brand experiences

09

Data & growth

Use data to measure Marketing performance, find bottlenecks in the customer journey and optimize growth.

Measurement → Analysis → Testing → Optimization → Retention → Growth

ROLE

Measure the whole Marketing system, find opportunities to improve and drive long-term growth.

SCOPE OF SERVICES · PART 1/2

Measurement & analytics

- Data tracking system setup
- Conversion measurement setup
- Marketing data analysis
- Reporting dashboard development
- Marketing reporting
- Customer journey analysis
- Marketing funnel analysis
- Customer source analysis
- Channel-by-channel performance analysis
- Marketing cost analysis
- Revenue performance analysis

Conversion optimization

- CRO
- User behavior analysis
- Landing page optimization
- Website optimization
- A/B testing
- Form optimization
- Conversion flow optimization
- Customer funnel optimization

CRM & Marketing automation

- CRM consulting
- CRM setup
- CRM integration
- Customer grouping
- Lead scoring
- Lead nurturing
- Email marketing
- SMS marketing
- Zalo OA
- ZNS
- Chatbot
- Marketing automation
- Customer care automation
- Sales automation
- Customer lifecycle management

09

Data & growth

Use data to measure Marketing performance, find bottlenecks in the customer journey and optimize growth.

Measurement → Analysis → Testing → Optimization → Retention → Growth

ROLE

Measure the whole Marketing system, find opportunities to improve and drive long-term growth.

SCOPE OF SERVICES · PART 2/2

Customer retention

- Retention marketing
- Post-purchase customer care
- Loyalty programs
- Win-back of past customers
- Repeat purchase rate growth
- Customer lifetime value analysis

Social listening & brand monitoring

- Social listening
- Brand monitoring
- Competitor monitoring
- Category monitoring
- Customer sentiment analysis
- Share of Voice tracking
- Trend detection
- Communications risk detection
- Crisis alerts
- Customer feedback analysis
- Campaign performance measurement

Growth marketing

- Growth strategy development
- Growth opportunity discovery
- Acquisition optimization
- Activation optimization
- Conversion optimization
- Retention optimization
- Revenue optimization
- Growth experiments
- Growth roadmap

10

E-commerce & social commerce

Build and optimize selling on e-commerce marketplaces, social media and other online sales channels.

Storefront → Products → Traffic → Conversion → Orders → Revenue

ROLE

Connect Marketing activity directly to revenue on e-commerce and social media platforms.

SCOPE OF SERVICES

- **E-commerce strategy**
  - E-commerce strategy development
  - Sales channel selection
  - Market and category analysis
  - Marketplace competitor analysis
  - Product strategy
  - Pricing strategy
  - Promotion strategy
  - Revenue plan development
- **Storefront management**
  - Shopee
  - Lazada
  - TikTok Shop
  - D2C sales website
  - Storefront setup
  - Storefront design
  - Product content optimization
  - Product catalog management
  - Product image optimization
  - Product page optimization
  - Promotion program management
- **Advertising & revenue growth**
  - Shopee ads
  - Lazada ads
  - TikTok Shop ads
  - Conversion ads
  - Retargeting
  - Affiliate marketing
  - Creator affiliate
  - KOL/KOC sales
  - Live-selling
  - Social commerce
- **Analysis & optimization**
  - Revenue tracking
  - Order tracking
  - Best-seller analysis
  - Promotion performance analysis
  - ROAS tracking
  - Conversion rate analysis
  - Storefront optimization
  - Revenue optimization

02

Artificial Intelligence (AI) & Automation

Bring AI into the real problems of businesses, organizations and individuals — choosing technology by the problem to cut manual work, speed up processes and raise effectiveness.

Problem → Process → Data → Solution → Technology

01

Artificial Intelligence (AI) strategy & consulting

Helps businesses, organizations and individuals decide where AI should be applied, which problems to prioritize and how to implement it.

ROLE

Helps clients identify AI opportunities with real value and build a suitable implementation roadmap.

SCOPE OF SERVICES

- **Assessment & strategy**
  - AI readiness assessment
  - AI opportunity mapping
  - AI strategy
  - AI transformation roadmap
  - Business process assessment
- **Solution design**
  - AI use case definition
  - AI solution design
  - Technology & model selection
  - AI return-on-investment assessment
- **Consulting & training**
  - AI adoption consulting
  - AI training for teams

02

AI automation & AI Agents

Apply AI and automation to cut manual work, connect systems and optimize operations.

SCOPE OF SERVICES

Processes & tasks

- Business process automation
- AI workflow automation
- Task automation
- Document processing

AI Agent

- AI Agent
- Multi-AI-Agent workflows
- Workflows with human oversight and approval

Automation by function

- Email automation
- CRM automation
- Sales automation
- Marketing automation
- Customer care automation
- Internal operations automation
- Data processing automation
- Reporting automation

Technologies we can use

- n8n
- Hermes Agent
- Make
- Zapier
- API
- OpenAI
- Claude
- Gemini
- Grok
- DeepSeek
- AI platforms suited to each system

ROLE

Helps clients save time, reduce repetitive work and build processes that can run automatically with AI.

03

Chatbots & AI assistants

Build chatbots, AI assistants and AI Agents for customers, sales, personal work and internal operations.

SCOPE OF SERVICES

- **Customers & sales**
  - AI chatbot for websites
  - Customer support chatbot
  - Sales chatbot
  - Lead qualification bot
  - AI customer care assistant
  - AI sales assistant
  - Customer support AI Agent
- **Internal & personal**
  - Internal AI assistant
  - Staff assistant
  - Personal AI assistant
- **Knowledge**
  - Knowledge-base chatbot
  - FAQ assistant
  - RAG chatbot
- **Channels & voice**
  - Messenger / WhatsApp / Zalo AI Bot
  - Voice assistant

ROLE

Helps customers and staff interact with information, data and processes through conversational AI.

04

Content & creative with generative AI

Use generative AI to speed up content production and develop creative assets for Marketing, advertising and communications.

SCOPE OF SERVICES

- **Text**
  - AI content creation
  - AI content editing
  - AI copywriting
- **Image**
  - AI image generation
  - AI product images
  - AI ad content
- **Video**
  - AI video generation
  - AI video editing
  - AI avatar
- **Audio**
  - AI voice generation
  - AI voiceover
  - AI localization & dubbing
  - AI music & sound
- **Campaigns & production**
  - AI creative campaigns
  - Synthetic content production

ROLE

Helps clients produce content faster, expand creative capacity and cut production cost with AI.

03

Design & Creative Studio

Where strategy and ideas become visual experiences — combining art direction, traditional production and generative AI, faster and more varied while staying on-brand.

01

Brand identity & logo design

Build a visual system that gives the brand a clear, distinctive and consistent look.

SCOPE OF SERVICES

- **Identity system**
  - Logo design
  - Visual identity
  - Brand identity system
  - Brand guidelines
- **Visual elements**
  - Typography
  - Color system
  - Icon system
- **Applications**
  - Business cards & stationery
  - Brand identity applications
- **Refresh & direction**
  - Rebranding
  - Visual refresh
  - Art direction

ROLE

Build the visual language and identity system that make the brand recognizable and consistent at every touchpoint.

02

Graphic design & visual communication

Design visual assets for brand, Marketing, communications and business activity.

SCOPE OF SERVICES

Campaigns & advertising

- Graphic design
- Key visual design
- Campaign visuals
- Ad creative
- Digital ad design
- Event visuals

Social & digital

- Social media design
- Email design
- Website banners
- Icon design
- Infographic design

Documents & print

- Marketing materials
- Presentation design
- Company profile design
- Brochure design
- Catalogue design
- Flyer design
- Poster design
- Menu design

Layout & signage

- Signage design
- Layout design
- Layout & image treatment

ROLE

Turn information, ideas and brand messages into visual products that are clear, engaging and consistent.

03

Illustration & visual art

Develop original artwork, illustration and fine-art assets for brands, campaigns, products and media content.

SCOPE OF SERVICES

Illustration

- Digital illustration
- Commercial illustration
- Editorial illustration
- Brand illustration
- Portrait illustration
- Campaign illustration

Characters & concept

- Character design
- Concept art
- Storyboard development

Art & patterns

- Pattern design
- Collage art
- Mixed-media art
- Decorative works
- Custom-designed works
- Custom graphic elements

ROLE

Create distinctive imagery and art language that strengthen brand recognition and leave a signature mark.

04

Photography & video production

Professional photo and video production for brands, advertising, products and media campaigns.

ROLE

Create high-quality original images and video for the brand to use in advertising, social media, websites, e-commerce and communications.

SCOPE OF SERVICES

Photography

- Photography
- Commercial photography
- Product photography
- Brand photography
- Campaign photography
- Lifestyle photography
- Fashion photography
- Beauty photography
- Food & beverage photography
- Corporate photography
- Portrait photography
- Interior photography
- Hotel & hospitality photography
- Event photography
- E-commerce photography

Video production

- Commercial video production
- Brand films
- Product video
- Ad video
- Campaign video
- Social media video
- Short-form video
- Corporate video
- Interview video
- Event video
- Lifestyle video
- Product demo video

Production & post-production

- Creative direction
- Art direction
- Idea development
- Storyboard development
- Pre-production planning
- Set design
- Prop styling
- Photo editing
- Photo compositing
- Video editing
- Color correction
- Color grading
- Audio editing

05

Creation & production with generative AI

Apply generative AI to creating and producing images, video, artwork and media assets.

ROLE

Combine AI with art direction and the creative process to expand visual and content capability, speed up production and scale up.

SCOPE OF SERVICES

AI images & visuals

- AI image generation
- AI art
- AI illustration
- AI ad content
- AI campaign images
- AI product images
- AI fashion images
- AI lifestyle images
- AI photography
- AI character creation
- AI image editing
- AI retouching
- AI photo compositing

AI video & motion

- AI video generation
- AI video editing
- AI animation
- AI motion content
- AI product video
- AI campaign video
- AI avatar
- AI characters
- AI lip sync

AI audio & voice

- AI voice generation
- AI voiceover
- AI dubbing
- AI localization
- AI music
- AI sound generation

Creative production with generative AI

- Generative AI art
- Synthetic content production
- AI creative direction
- AI-assisted content production
- AI idea development
- AI storyboard development
- AI visual exploration
- Creative content variations at scale

TECHNOLOGY & PLATFORMS

Choose technology by the problem, not by the tool

AI models

- OpenAI
- Claude
- Gemini
- Grok
- DeepSeek

Automation

- n8n
- Hermes Agent
- Make
- Zapier
- Webhook
- API

Marketing & advertising

- Meta
- Google
- TikTok
- YouTube
- LinkedIn
- Zalo
- Programmatic advertising

Analytics & measurement

- Google Analytics
- Google Tag Manager
- Looker Studio
- Conversion tracking
- Marketing dashboards

CRM & customer care

- CRM integration
- Email marketing
- SMS
- Zalo OA
- ZNS
- Chatbot
- Marketing automation
- Customer data management

E-commerce

- Shopee
- Lazada
- TikTok Shop
- Website
- Shopify / Haravan

Technology selection criteria

Problem · Existing systems · Integration · Data · Security · Budget · Operations · Scale · Return on investment

The platforms above are technologies chosen per project; they are not official partners of Vibe AI Labs.

METHOD

Audit. Build. Automate. Grow.

01

Audit

Assess the current state: market, customers, data, processes.

02

Build

Build the foundation: strategy, brand, content, measurement.

03

Automate

Connect systems, AI Agents, chatbots and automated workflows.

04

Grow

Test, measure and optimize against real data.

HOW WE COLLABORATE

From discovery to scale, in 8 steps

01

Discovery

Customer, goals, problem, current state.

02

Analysis

Customers, data, processes, systems and areas to improve.

03

Strategy

Direction, solution and implementation roadmap.

04

Proposal

Scope, deliverables, timeline, team, technology, budget, KPIs.

05

Implementation

Carry out the project.

06

Measurement

Track and evaluate performance.

07

Optimization

Optimize based on data and real results.

08

Scale

Scale the system once the solution has proven itself.

RESPONSIBLE AI DELIVERY

Don't automate just because you can

What people should do → What AI should support → What can be fully automated

1. Start from the problem
2. Prioritize real value
3. People in control at key points
4. Protect data
5. Choose the right technology
6. Test before scaling
7. Make it measurable
8. Keep optimizing
9. Don't automate just because you can

ROADMAP FOR A NEW AI PROBLEM

Ideas → Prototype → PoC → MVP → Implementation → Measurement → Scale

Human oversight means: review · approve · adjust · intervene · monitor results.

DATA & SECURITY

Client data stays under the client's control

Access by scope

Access to data, accounts, platforms and systems is set by the scope of work and actual need.

Use only the data that's needed

Only the data needed for the project scope is used. Vibe AI Labs' access is used only within the scope of delivery.

Architecture chosen by security requirements

AI projects choose architecture and platforms based on security requirements, the client's data policy, integration capability, operating efficiency and scalability.

Human oversight and approval

Mechanisms are designed so people can review, approve, adjust and intervene when needed.

WAYS TO WORK TOGETHER

Seven ways to work together

Project-based

Scope, goals, deliverables, timeline and budget are defined up front.

Ongoing retainer

Regular support on a monthly or quarterly basis.

Consulting

Assess the current state, define the problem, and build a strategy or implementation roadmap.

Implementation

Design and implement Marketing, AI, Automation or Creative solutions.

Managed operations

Vibe AI Labs directly operates, monitors and optimizes part or all of the system after delivery.

Training

Train your team in Marketing, AI, Automation and Creative.

Current-state assessment

Assess your Marketing, AI, Automation systems or processes to identify room for improvement.

No single fixed price.

Cost depends on scope, complexity, deliverables, timeline, technology, staffing, infrastructure, integration and post-delivery operations.

HANDOVER & POST-DELIVERY SUPPORT

Usable and operable, even after the project ends

30 days
of support after handover

24 working hours
support response time

Monthly / quarterly
maintenance plans, agreed per project

Handover (depending on scope)

- Design assets
- Content
- Image
- Video
- Strategy documents
- Reports
- Project data
- Working processes
- Automation workflows
- AI Agent
- Chatbot
- AI assistants
- System configuration
- Accounts and access rights
- Source code, if within scope
- Technical documentation
- User guides
- Operations guides

Training & transfer

- System walkthrough
- Administrator training
- End-user training
- Content and data update guidance
- AI Agent management guidance
- Guidance on handling common situations
- Operating process handover

Post-delivery support

- Troubleshooting support
- Configuration adjustments
- System monitoring
- Performance optimization
- Process updates
- Feature additions
- Integration expansion
- Operating cost optimization
- AI Agent tuning
- Knowledge base updates
- Team usage support

WHO WE SERVE

Who we serve

Businesses & organizations

- Small and medium businesses
- Startups
- Brands building or expanding digital Marketing
- E-commerce businesses
- Businesses selling through social media
- Businesses applying AI to Marketing, sales and customer care
- Businesses automating their operations
- Businesses needing AI Agents, chatbots or AI assistants
- Businesses rolling out CRM and Marketing automation
- Businesses going through digital or AI transformation
- Marketing, sales, customer care and operations teams looking to boost productivity with AI

Individuals

- Founders and co-founders
- Business owners
- Freelancers
- Consultants
- Marketers
- Content creators
- Specialists in professional fields
- Online sellers
- Individuals building AI products or projects

AI needs for individuals

- AI solution consulting
- AI Agent design and build
- Personal AI assistant
- AI chatbot
- Knowledge assistants
- RAG systems
- Automation of tasks, email, content and workflows
- Connecting AI to the software you already use
- AI prototypes and MVPs
- Generative AI for content, images and video
- Integrating AI into products, services or business models

Main market: Vietnam · No fixed limit on client size; it depends on the problem and project scope.

FOUNDER

Henry Le

Marketing Engineer · Founder of Vibe AI Labs

> “AI is only valuable when it starts from the problem, is measured by results and keeps people in control.”

Henry Le works at the intersection of Marketing, technology and creativity, focused on bringing Artificial Intelligence (AI) into real business problems: from growth strategy, building AI Agents and automating processes to producing content with generative AI. Vibe AI Labs was founded to connect Marketing, AI and Creative into one system that helps clients grow and innovate sustainably.

TEAM

One team, three capability groups

Digital Marketing

- Marketing strategy
- Market research
- Brand
- Content strategy
- Content production
- Performance marketing

FREQUENTLY ASKED QUESTIONS

You might be wondering

Do you serve individual clients?

Yes. Vibe AI Labs works with businesses, organizations and individuals.

Can you build a custom AI Agent?

Yes. AI Agents are designed around the needs of work, business, research or specialized processes.

Does Vibe AI Labs only do AI?

No. Marketing, AI and Creative can be delivered independently or combined, depending on the problem.

How is cost calculated?

By scope, complexity, deliverables, timeline, technology, staffing, infrastructure, integration and operations.

Have an AI idea but not sure where to begin?

We support you from defining the use case and assessing feasibility to choosing technology, prototype, PoC, MVP and delivery.

How long does delivery take?

It is set once we understand the project's scope, requirements and complexity.

Do you support clients after handover?

Yes, it can be arranged. Support, maintenance and optimization scope is agreed per project.

How do we get started?

The first step is a conversation to define the problem, the goals and the scope to deliver.

Let's build what's next.

Talk with Vibe AI Labs to define the problem together and build the right solution.
